SUMMARY

Frontend Developer with 1.5+ years of experience building scalable, responsive web applications using React.js, Next.js, and TypeScript. Skilled in integrating REST APIs, managing state, and working with UI libraries like MUI and Chakra UI. Strong in Git-based workflows, performance optimization, and Agile collaboration.

WORK EXPERIENCE
Sep 2023 - Present

Frontend Developer , Bluepi Consulting

- Developed and maintained scalable, responsive UIs for Pricing and RxBenefits applications using React.js, Next.js, TypeScript, and UI libraries (Material-UI, Chakra UI), contributing to a 30% improvement in page load performance.
- Built and optimized reusable components to ensure code consistency, modularity, and improved developer productivity — reduced duplicate codebase by 40%.
- Integrated RESTful APIs using Postman, managed application state with React Context API, and ensured smooth data flow, leading to a 25% faster data rendering on critical views.
- Collaborated with cross-functional teams including UI/UX designers, QA, and backend developers in an Agile/Scrum environment.
- Communicated directly with US-based clients for requirement gathering, sprint reviews, and delivery updates.
- Conducted code reviews, enforced coding standards, and contributed to frontend performance optimization.

EDUCATION

Bachelor of Technology – Computer Science & Engineering   **2019 - 2023**

GLA Institute of Technology & Management, Mathura

PROJECTS

Pricing Portal – Next.js, MUI, TypeScript
Built reusable components, optimized performance, and ensured design consistency.

RxBenefits – React.js, Chakra UI, TypeScript
Developed UI features using React.js & TypeScript with API integration and responsive design.

SKILLS

- **Frameworks & Libraries:** React.js, Next.js, Material-UI (MUI), Chakra UI
- **Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3, Java
- **State Management:** React Context API, Redux Toolkit
- **Tools & Platforms:** Git, GitHub, Bitbucket, Postman, Vercel, Netlify
- **Practices:** Responsive Design, REST API Integration, Lazy Loading, Code Reusability
- **Soft Skills:** Agile, Collaboration, Client Communication, Problem-Solving
